## SKILLS

---

### Programming Languages

*Python, Matlab, C/C++, SQL, HTML, Lua (Scripting Lightroom).*

### Software

*Adobe Photoshop (proficient), Adobe Lightroom, Audacity.*

### Frameworks and Libraries

*PyTorch, PyTorch-Lightning, PyTorch Mobile for iOS, OpenCV, Kornia, Caffe, TensorFlow, RabbitMQ, MongoDB.*

### Server Management

*Set up and maintain CPU/GPU linux servers.*

## EDUCATION

---

### Ph.D. in Science and Engineering, Hosei University 📄

Thesis on Learned Image Restoration. Completed within 1.5 years

09/2020 – 03/2022

Tokyo, Japan

### M.Eng. in Science and Engineering, Hosei University 📄

Thesis: Self-Supervised Learning for Video Compression (Grade: 4.0/4.0)

09/2018 – 09/2020

Tokyo, Japan

### B.S. (Honors) in Computer Science, University of Information Technology 📄

Thesis: Face Recognition in Video using DICA (Grade: 3:56/4.0)

09/2013 – 09/2017

Ho Chi Minh, Vietnam

## PROJECTS

---

### Smartphone Photo Scanning 📄

Presented a new dataset DIV2K-SCAN for smartphone-scanned photo restoration. Proposed Domain Simulation to generalize many different shooting devices and environments. Proposed a Semi-Supervised Learning framework to solve limited training data.

### Blending and Retouching Photos with Color Style Transfer 📄

Defined a new color style based on low-level transformation. Proposed a supervised color style transfer. As a result, Lightroom Preset can be a well-retouched photo. Future work is an application for Image Manipulation (a sample by me 📄).

### Solving Video Compression Degradation 📄

Provided a better understanding of Video Compression Degradation. Adopted Super-Resolution, Colorization, and Frame Interpolation for Learned Image/Video Compression. Designed Restoration-Reconstruction Deep Neural Networks (RR-DnCNNs) to improve the compression ratio of a down-sampling-based video coding.

### Applications for Visually Impaired People 📄

Proposed a way of leveraging depth estimation to avoid noise in the background and narrow the depth of interest in such case that the person desires to detect coins/banknotes only on a certain surface (e.g., their hands).

## PROFESSIONAL EXPERIENCE

---

<b>Research Assistant, Waseda University</b>  Research on learning and solving Video Compression Degradation.	11/2021 – present Tokyo, Japan
<b>Research Assistant, Hosei University</b>  Research on Deep Learning techniques for Video Compression. Manage GPU servers and assist other students in their projects. Prepare teaching materials.	09/2018 – present Tokyo, Japan
<b>Machine Learning Engineer, EyeQ Tech</b>  Deal with real-world problems related to face recognition, multi-face tracking, and object detection using deep learning techniques. Take a key role in deploying deep models for computer vision services. Experience Tensorflow, Nginx, RabbitMQ, MongoDB, etc. Participate in interviewing candidates. Recognized as a "Key Contributor" and promoted/trained to be a team lead.	09/2017 – 09/2018 Ho Chi Minh, Vietnam
<b>Amateur Photographer, Sarugraphy</b>  Learn how to take good photos and use post-processing software such as Photoshop and Lightroom to enhance image color style and quality. Practice photo shooting with varied devices such as off-camera flash, light reflectors in various in-door and out-door environments. Got paid for freelance work.	2015 – 2018 Ho Chi Minh, Vietnam
<b>Human Management (freelancer), SouL Magazine</b>  Manage others to meet monthly deadlines, communicate between departments to solve problems. Participate in recruiting and evaluating writers.	2014 – 2016 Ho Chi Minh, Vietnam

## AWARDS

---

<b>Hosei University Science and Engineering Departments</b> <b>Education/Research Promotion Fund Academic Achievement Award 2020,</b> <i>Hosei University</i>  <ul style="list-style-type: none"><li>Presented to a student who achieves Top-1 for Research Performance and GPA in Science and Engineering Departments.</li></ul>	07/2020
<b>Best Paper Runner-up Award,</b> <i>The 26th International Conference on Multimedia Modeling (MMM)</i> 	01/2020
<b>Key Contributor, EyeQ Tech Vietnam</b>  <ul style="list-style-type: none"><li>Awarded to an engineer who has the greatest contribution to the company as well as delivered projects.</li></ul>	08/2018
<b>The Five-Virtue Student,</b> <i>Vietnam National University - University of Information Technology</i> 	12/2016

## CERTIFICATES

---

**Certificate of Completion for successfully completing the 320 hours Global Software Talent training course and examination on the specialty of Global .NET Developer**   
*issued by FPT Software, 2016.*

## COMMUNITY SERVICE - PAPERS REVIEW

---

British Machine Vision Conference (BMVC) 2020, 2021  
Computer Vision and Pattern Recognition (CVPR) Workshops 2020  
International Conference on Computer Vision (ICCV) 2021 (assistant)  
Winter Conference on Applications of Computer Vision (WACV) 2021, 2022

## GRANTS AND SCHOLARSHIPS

---

<b>Research Grant for Doctoral Courses, Hosei University</b>	09/2020 – 03/2022
<b>The 100th Year Anniversary Scholarship, Hosei University</b>	07/2020
<b>Japan Student Services Organization (JASSO) Scholarship, JASSO</b>	10/2019
<b>Daddy Longlegs Scholarship, Hosei University</b>	09/2019
<b>Monthly Scholarship for Students in Honors Programs, Vietnam National University - University of Information Technology</b>	09/2013 – 09/2017
